

Telecom Network Engineer – Valdez and Glennallen, AK

Copper Valley Telecom is currently seeking a Telecom Network Engineer (I, II, or III) to provide engineering support for both inside and outside communications facilities in Glennallen or Valdez, AK.

The selected applicant will work closely with the Plant and IT Departments of the Cooperative in designing, implementing, maintaining, and upgrading all aspects of the core, access, and distribution networks and associated equipment, including the design and support of services deployed via Ethernet, IP, MPLS, OTN, SONET, and WDM-based platforms.

This is a full time, hourly, non-exempt position with an outstanding benefit package which includes health, vision, and dental insurance, 401K matching, and a pension program. Moving expenses provided per company policy. Additional benefit programs include applicable education and wellness reimbursements, a quarterly bonus program, service discounts, and a generous leave package (starting at 192 hours annually) along with ten paid holidays.

This is an IBEW 1547 Union represented position (need not be a current member to apply) and requires satisfactory results of a background check and drug screen (excluding marijuana). Starting wage for this position is \$36.50 per hour, highly qualified applicants may be considered for advanced classifications (II, III) with a higher starting wage up to \$62.58 per hour, depending on experience and education. Please review the job description for each classification's requirements.

CVT is an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity or national origin.
